

Speaker Biography
State Regulatory Perspective
Bioreactor Landfills
Defining End of Post-closure

Scott Walker

Scott Walker is currently Acting Permitting and Enforcement Division Deputy Director at the California Integrated Waste Management Board (CIWMB). CIWMB is part of the California Environmental Protection Agency (Cal/EPA). Mr. Walker is a California Registered Professional Civil Engineer (PE) and Certified Engineering Geologist (CEG) with over sixteen years work experience as an environmental engineer and geologist within agencies of Cal/EPA. Mr. Walker has been directly involved in facilitating regulatory approvals and funding of a full-scale bioreactor landfill project at the Yolo County Central Landfill. In addition, Mr. Walker is a Cal/EPA representative on California's Landfill Methane Outreach Program (LMOP) State Partnership with USEPA, has been the lead CIWMB contact for California's Subtitle D Program, and is responsible for implementing CIWMB site cleanup programs.
